- API development
- MySql
- Bootstrap
- Ajax
- JQuery
- HTML5

Soft Skills

- ★ Problem solving
- ★ Fluent in English
- ★ Attention to details
- ★ Time management
- ★ Team player

About Me

Hello there! I'm a dedicated full-stack web developer driven by a profound passion for crafting exceptional websites and robust APIs. With about four years of immersive experience in the dynamic realm of web development, I've fine-tuned my skills to consistently deliver outstanding digital experiences. Known for my ability to work swiftly without compromising quality, I take pride in delivering fast and efficient solutions within the budget.

Education

2018 - 2022

BS in Computer Science

From Abdul Wali Khan University

2016 - 2018

FSc in Pre Engineering

From Apostle Degree College

Experience

Aug 2022 - March 2024

Laravel Developer

Here I have worked on complex referral systems, ecommerce website and built APIs using Laravel. Customizing the existing websites and fixing bugs was also part of job here.

It was a full time remote job. company name: "Vitalblaze"

Oct 2022 - March 2023

FullStack Web Developer

Built complete websites using core php, Laravel and Bootstrap with the help of already developed templates.

It was a part time remote job. company name: "The Globals Writing"

March 2022 - June 2022

Junior Laravel Developer

Worked at the Admin Panel of applications and built APIs for the frontend (flutter) team.

It was a full time Onsite job. company name: "Logic Valley"

Oct 2020 - March 2022

Freelancing

Built some websites and blogs using core php and Bootstrap. I was studying my BSCS that time and building my skills as a web developer.
